

THE FOCUS IS ON FUN!
ASTRONOMY & SPACE EXPLORATION

**BREVARD
ASTRONOMICAL SOCIETY**

PRESENTS

SERIAL 78

JUNE 15-16-17, COCOA BEACH, FLORIDA

The Brevard Astronomical Society invites you and your family to the 1978 SERAL Convention. Our focus will be on family fun and scientific astronomy — including space exploration. Nearby Kennedy Space Center will be available for tours and will provide NASA scientists and films — maybe even an astronaut — for our edification.

In addition to KSC, Brevard County has much to offer the entire family: clean white Atlantic beaches for swimming, fishing and surfing; deep-sea fishing facilities at Port Canaveral; boating, fishing and skiing on the Indian River; and, of course, that world-famous Florida sunshine! Bring your family, bathing suits, suntan lotion, and fishing tackle, and get ready for a good time.

Walt Disney World and Sea World are a 1-½ hour drive away — buses will leave the motel at 8 AM daily for an all-day visit for the non-astronomers in your group.

For the astronomer, there are: Astronaut Memorial Hall Observatory and Planetarium at Brevard Community College; missile displays at Patrick Air Force Base; and visits to local amateur observatories.

**COCOA BEACH '78
ANNUAL CONVENTION**

Southeast Regional Astronomical League

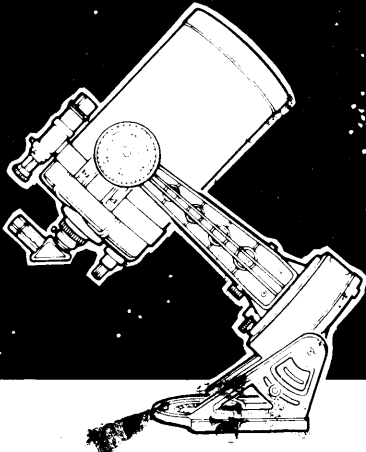

15, 16, 17 June 1978

Headquarters: Atlantis Beach Lodge
